# **PRINCIPAL'S MESSAGE**

*The month of October starts with the feast of St. Therese of Lisieux on first October. Our Patroness was a holy Nun who lived in France during the 18th century with an exemplary life by just doing the day to day routine acts with more LOVE of God.*

*Who is the greatest in the kingdom of God? (Mt 18:4) Jesus asked his disciples. Not the one who does the mighty deeds or perform miracles to captivate the people around. The rich man put the money in the temple offerings is far behind the widow who deposited her only one copper coin sparing from her poor savings because of her LOVE. (Mk 12:42)*

*Not the external appearance, the royal outfits, costly ornaments or cosmetic beautified faces are superior to the humble, simple or naturals. The greatness of a person is not what he speaks or the knowledge expressed but the words or wisdom that can move the people and system to change by action. During the life time we may not get recognized but the one who has a vision will be establishing the foundation for generation to follow the footsteps. The pain and passion they undergo will deliver not only a mere history but thousands to follow.*

*Just 24 years of life spent in the convent were more than enough to St. Therese to mark indelibly in the Story of a Soul the shortcut to reach the heaven. The one and only way for her to achieve the goal is to depend on God as a child that cries every time for any needs. The lovely mother recognizes and responds instantly with motherly care. The Spiritual Childhood of St. Therese of Lisieux is the best theology she could live in her short life and that proved her to attain Heaven.*

*Let me wish you the Greetings of the feast of St. Therese of Lisieux and her intercessions give us Roses from Heaven.*

*War begins in the mind; Peace begins in the heart.*

*Mind needs logical answers, but heart does not. "Heart has got its own reasons that reason does not know." Great thinker Paschal said.*

*As we approach Bible with this perspective, it has got two parts: Old Testament and New Testament. In Old Testament, when it is written "Eye for eye, tooth for tooth" it was more logical, appealing to mind. But in New Testament, Jesus came and said another viewpoints, **FORGIVE OTHERS.***

*When somebody strikes your right cheek, show your left cheek also. It seems, very illogical and gives no satisfaction to mind which always seeks logical answers.*

*"Forgiving", is it suitable to those who value self-respect? But, our Father of Nation, Gandhiji showed an example. When the White South African policeman kicked him with his iron boots, he could ask him "Sir, anything happened to your shoes"?*

*Gandhiji got this inspiration from the words and life of Jesus. He was really struck by the words of Jesus on the cross who prayed for those who persecuted him inspite of experiencing an excruciating pain. Praying for the enemies could be done only by the people who are blessed with divinity. We need such leaders who are filled with divinity to forgive even the enemies.*

*When people fight in the name of God, we are like those people who wish to say "we want to be non believers, we don't want to believe in this God who wanted to be satisfied in retaliation, asking followers to take the blood of others for vengeance*

*Today we need a God who teaches us to forgive; we need a religion which teaches us how to love God, people and Nature. That religion alone leads people to love God and motivates people to love people even if they believe in a loving and forgiving God who is known with different names.*

*Let us see what different religions speak about this.*

*Christianity :* Jesus teaches in Matthew 15:19 that "out of the heart come evil thoughts, murder, adultery, sexual immorality, theft, false witness, slander."

*Buddhism :* Buddhism emphasizes the role of desire, anger, and ignorance in causing suffering and violence.

*Islam :* The Quran (13:11) suggests that external change begins with internal transformation, stating that "Allah will not change the condition of people until they change what is in themselves

*All religions teach us to forgive and love others. Endeavours like "Peace and Harmony club" and its different celebrations will surely implant the seeds of peace in the hearts of parents, teachers and students. Let those great efforts for Peace and Harmony bring out many leaders who can think with their heart than mind.*

*Thus, in future war will not begin in the mind and the efforts for peace will begin in the hearts.*

## **"Fostering Humanity in Education: Why Students Need Compassion and Empathy"**

Humanity refers to the qualities that make us human, such as kindness, compassion, and the ability to care for one another. It is the idea that we should treat others with respect, regardless of their background, beliefs, or appearance. Showing humanity means helping those in need, being understanding of others' struggles, and working together to make the world a better place.

Humanity also involves standing up for what is right. Whether it's defending someone from unfair treatment or making sure that everyone has the chance to succeed, acting with humanity helps create a fairer world. By being generous, honest, and kind, we contribute to a positive society where everyone can thrive.

In conclusion, humanity is about caring for one another and making choices that uplift others. If we all practice these values, we can build a world that is more peaceful, fair, and united.
